

CORPORATE PARTNERS PROGRAM

The Community College League of California invites you to participate in the Corporate Partners program.

The Corporate Partners program helps build strong working relationships between the state's 72 community college districts and the businesses and professional firms who provide those districts with a variety of essential services.

California community colleges reach over 2 million students a year—a third of our nation's community college population. With 72 districts encompassing over 114 colleges, the League's Corporate Partners program offers your business or professional firm the opportunity to build strong relationships with key decision makers.

Partnership levels provide opportunities to learn more about issues facing California's Community Colleges and have meaningful discussions with Chancellors, Presidents, and Trustees who are working to resolve these challenges. The package of benefits provides effective ways for promoting your services through advertisements, events, and special articles on select League communication platforms.

For more information on the Corporate Partners program or to participate, contact Lisa Mealoy, Director of District Services and Development, at 916.245.5027 or lmealoy@ccleague.org.
