ALIGNED RESOURCES AND PROGRAMS TO PUT STUDENTS FIRST

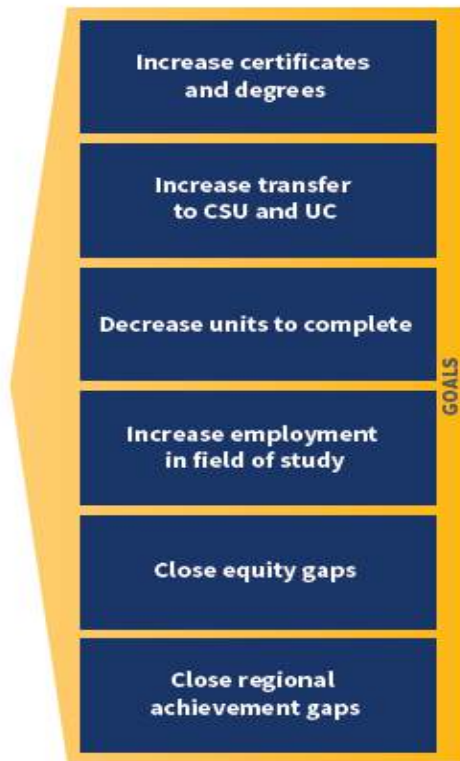

THE WHY

Our Students and Communities

THE WHAT

Vision for Success

THE HOW

Guided Pathways

THE TOOLS

System-level Support

Four Pillars of Guided Pathways

Create clear curricular pathways to employment and further education.

Help students choose and enter their pathway.

Help students stay on their path.

Ensure that learning is happening with intentional outcomes.

Student Journey

A recent high school graduate that wants to transfer to a 4-year university, a working parent that wants to learn new technologies to get a wage increase or save his job, a single-mom working two jobs with kids at home, a 65-years old retiree that wants to learn French... They all have different career and educational goals! They have different needs for guidance, service, and support.

CALIFORNIA COMMUNITY COLLEGES STUDENT JOURNEY MAPS

Student Journey #1: Tara Shaw

Tara is a new high school graduate with need for remediation in English and Math and need for financial aid.

Occupation: None

Age: 18 Years Old

Primary Goal: Transfer to a four-year college

Attributes: Transfer student

Main Challenges: Placed into courses below her ability, with no way to re-place for another 18 months.

"I'm excited to be a college student, but there are so many steps to figure out."

CURRENT EXPERIENCE

Tara was introduced to her local community college in high school. The college provided assessment testing for her college for senior students at no cost. Tara's family did not have the means to send her directly to a university, so she participated in this assessment. Although Tara had taken pre-calculus and English Literature at her high

CALIFORNIA COMMUNITY COLLEGES STUDENT JOURNEY MAPS

Student Journey #2: Darrin Chambers

Darrin is a low-income African-American returning student with a wife and two children. He currently works two jobs.

Occupation: Manufacturing

Age: 28 Years Old

Primary Goal: Earn a one-year certificate in automotive tech and spend weekends with his family

Attributes: Working Parent, Married

Main Challenges: Most college support services are closed by the time he gets off work, and he needs financial aid assistance

"College is really hard for working students and I wish there were more services available in the evenings."

CURRENT EXPERIENCE

Darrin had heard of community colleges, but he always thought that college was for the privileged. He couldn't imagine how with two kids, a wife, and two kids he could possibly consider college until one of his coworkers in

Simplifying the Metrics

Principles

1. The focus will be strictly on students and their educational journeys from recruitment to completion.
2. The outcome will be ONE set of metrics for the system drillable for details.
3. Equity will be observed across all metrics.
4. Metrics will align the progression of students along various initiatives.
5. Each metric will be valid, drillable, measurable, and critical.
6. The delivery of each metric will be planned including the need for possible legislative work.
7. The process of simplification does not eliminate current data but ensures consistency of data in terms of definitions, source, and timing.

Student Types Based on Goals

Adult Education/ESL

- Improve basic skills in English, reading or math
- Complete credits for high school diploma or GED
- Move from noncredit coursework to credit coursework

Short-term Career Education

- Discover/formulate career interests, plans, goals
- Prepare for a new career (acquire job skills)
- Advance in current job/career (update job skills)
- Maintain certificate or license (e.g. Nursing, Real Estate)
- Earn a career technical certificate without transfer

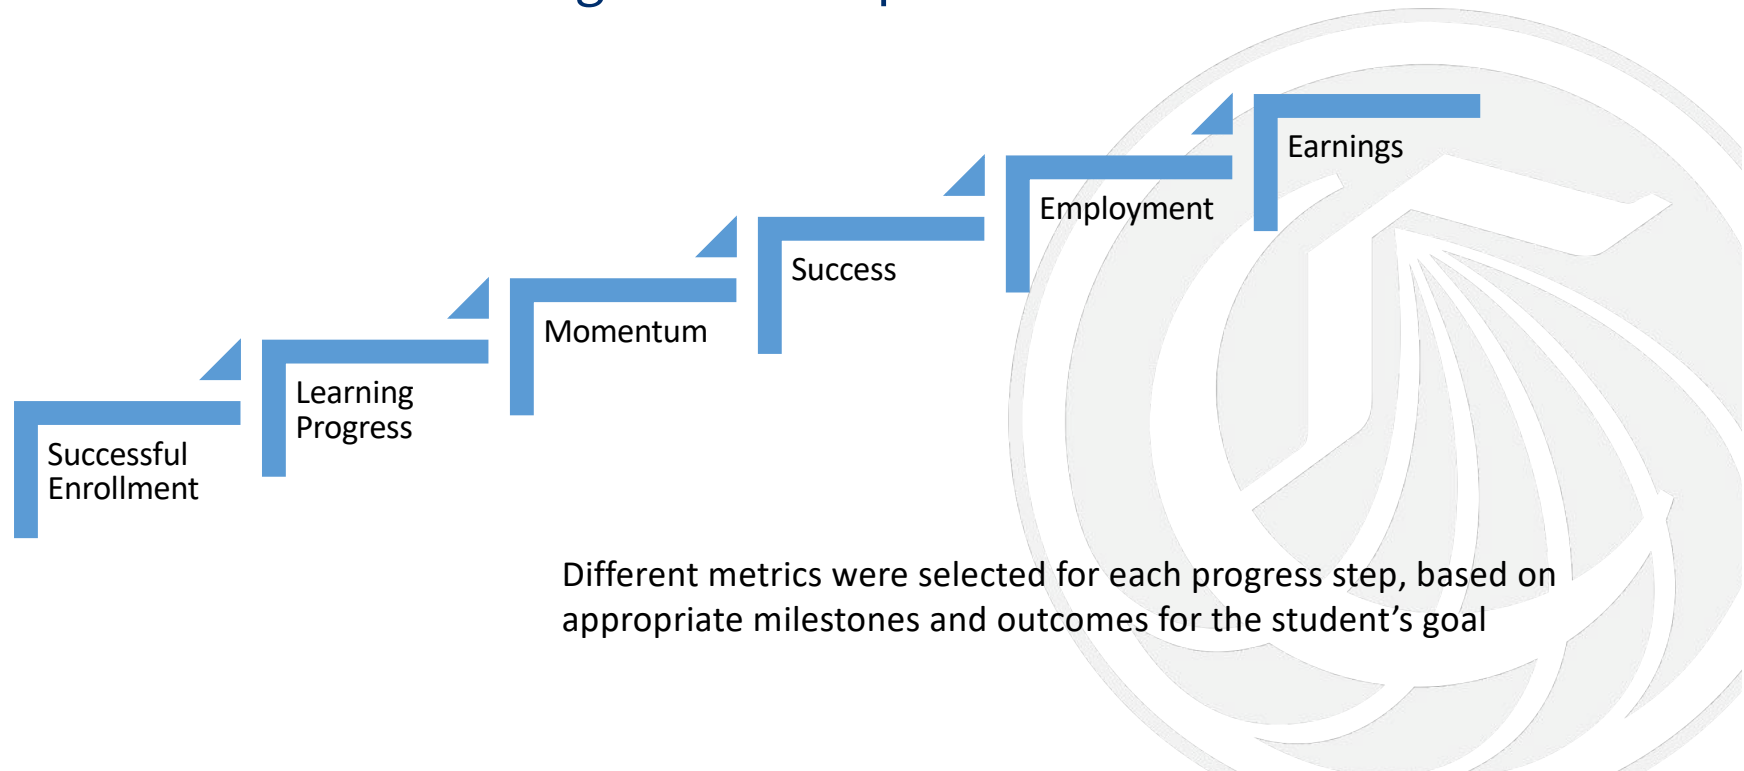

Degree/Transfer

- Obtain an associate degree and transfer to a baccalaureate granting institution
- Transfer to a baccalaureate granting institution without an associate degree
- Obtain a two-year associate degree without transfer

Undecided/Other

- Undecided on goal
- Pursue educational development (intellectual, cultural)
- University / 4-year college student taking courses to meet university / 4-year college requirements
- No goal data

Metrics Focus on Six Progression Steps

Accessing the Student Success Dashboard

Data Resources

Below are tools and resources we provide for you to access data about the California Community Colleges system. Learn about student success, degrees, certificates, workforce options and more by clicking on one of the links below.

Student Success Metrics

To provide a holistic approach to the California community colleges' work on student success, the Chancellor's Office worked with a broadly representative group of practitioners to develop Student Success Metrics. Organized around common goals such as adult education/ESL, short-term career education, and degree/transfer, the metrics capture progression along students' educational journey from recruitment to completion, transfer, and the workforce. Student Success Metrics pinpoint critical milestones and accomplishments that align with the Vision for Success and the Student Centered Funding Formula, and integrate metrics associated with various initiatives and funding streams.

Export the data you've selected

Skip to a specific phase of student journey

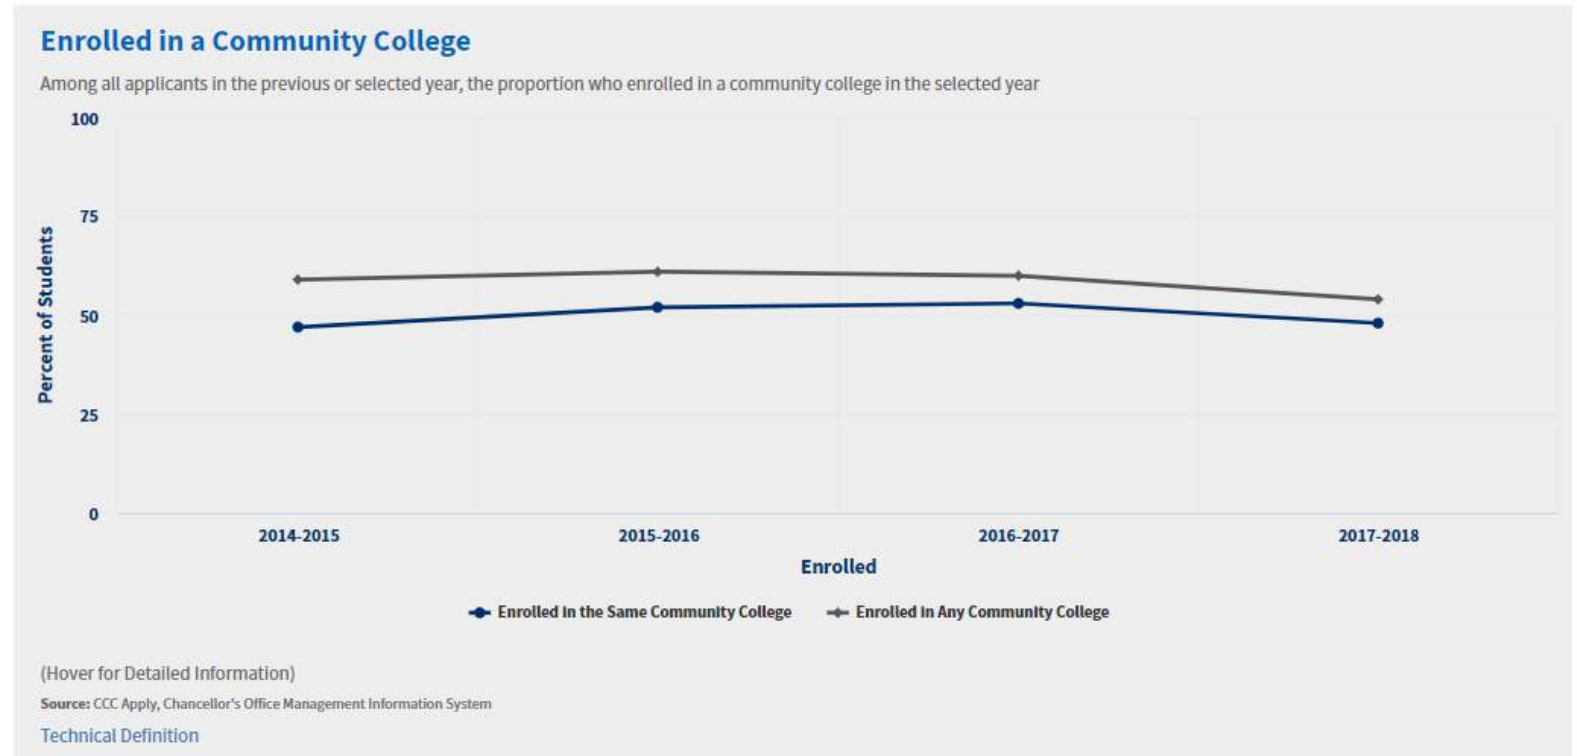

The screenshot shows the top navigation bar of the California Community Colleges Student Success Metrics dashboard. It features the college logo on the left, followed by the text "California Community Colleges" and "Student Success Metrics". Below this is a horizontal menu with the following items: STUDENT TYPE, LEARNING PROGRESS, MOMENTUM, SUCCESS, EMPLOYMENT, and EARNINGS. On the right side of the navigation bar, there are two buttons: "Export Data to CSV" and "Interested in how the data is calculated? See the Data Element Dictionary". Three green arrows are overlaid on the image: one points from the text "Skip to a specific phase of student journey" to the "SUCCESS" menu item; another points from "Export the data you've selected" to the "Export Data to CSV" button; and the third points from "See comprehensive information on how the metrics are constructed" to the "Interested in how the data is calculated? See the Data Element Dictionary" button.

New Metric

SUCCESSFUL ENROLLMENT

The California Community College common application system, CCCApply, is the source of data for this metric. The adoption of CCCApply has been incremental, so information is not available for 32 colleges in 2014-15, 7 colleges in 2015-16, and 3 colleges in 2016-17. The successful enrollment section includes all students who completed an application, based on the goal they indicated in their application, while subsequent metrics show figures based on students' informed goals after meeting with a counselor.

Need to better understand onboarding

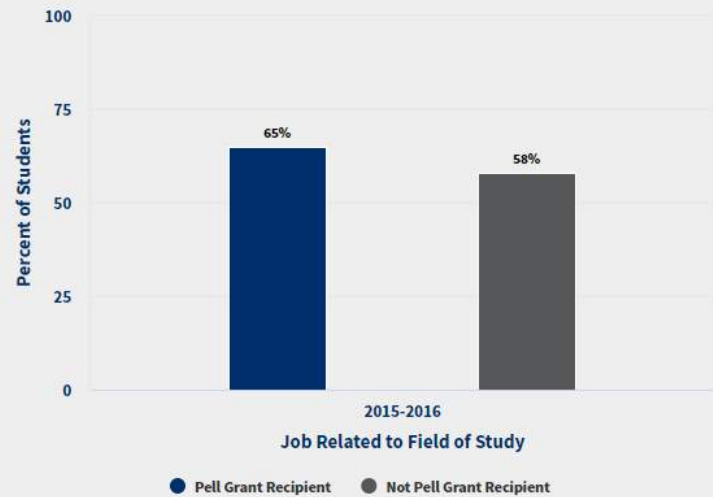

Academic Year	Completed Applications Forwarded	First-Time Enrolled
2016-17	2.1M	604K
2017-18	2.5M	615K

Some disaggregations show all options in one tile

EMPLOYMENT

Job Closely Related to Field of Study

Among degree/transfer students who responded to the CTE Outcomes Survey and did not transfer, the proportion who reported that they are working in a job very closely or closely related to their field of study

Attained the Living Wage

Among short-term career education students who exited the community college system and who did not transfer to any postsecondary institution, the proportion who attained the district county living wage for a single adult measured immediately following the academic year of exit

(Hover for Detailed Information)

Source: Chancellor's Office Management Information System, Employment Development Department Unemployment Insurance Dataset, National Student Clearinghouse, CSU/UC Match, Insight Center for Community Economic Development

[Technical Definition](#)

Next Steps

- Iterative progress with regular deliverables
- Tying the data to best-practices and support
- Better representing equity outcomes (DI data)
- Unpacking the data across gaps and barriers
- Increasing data flow to colleges

Thank you!

Dr. Omid Pourzanjani, Visiting Sr. Executive, CCCCCO
